Career Objective

Achieve high carrier growth through a continuous learning process and keep myself dynamic, visionary and competitive with the changing scenario of the world.

Education Credentials

Year(s)	Qualification – Degree / Diploma / Certificate	Board/University	College / Institute/ University	Percentage / CGPA
2014 – till now	B.Tech (Computer Science Engineering with specialization in Cloud Computing and Virtualization Technology)	University of petroleum and energy studies	School of Computer Science Engineering	3.00/4
2008	XII	CBSE	Sir Padampat Singhania Education Center	86.4%
2006	X	CBSE	Sir Padampat Singhania Education Center	8.6/10

Extra-Curricular Achievements/Activities

- Conference paper on "Analysis of Various Noise Removal Algorithms" accepted at ICRDSTHM-17
- Certification of participation in Android development workshop organized by Cetpa InfoTech Pvt.Ltd, Dehradun.
- Certification of participation in ACM-ICPC online programming contest.
- Certification of participation in ACM-ICPC Asia Amritapuri regional 2015.

PROJECTS UNDERTAKEN

Summer Internship/ Projects

Company: Wildlife Institute of India, Dehradun
Duration: June 2017 - August 2017 (2 Months)
Project Title: Mstripes
Description: Developed a desktop application that uses game theory modeling to determine the most vulnerable areas and create a patrol path accordingly to maximize adversary detection. Also, developed an android application for the patrol guards for displaying route to be taken and reporting.
Skills used: Java, Android App Development
Roles: Android App Development, Contribution in desktop application development

Projects

Project Title: Image Processing Using C (Minor Project 1)
Description: Developed an application that compares the effectiveness of different noise removal algorithms applied on an image with different types of noise and lays a base for better understanding of how the system interacts with images.
Skills used: C
Roles: Team Lead, Contribution in application development

Project Title: A 2-player Turn Based Artillery Game in OpenGL using C++
Description: A 2D game in which a player attacks other player's tank by setting angle and power of his tank and firing a projectile.
Skills used: C++, OpenGL
Roles: Team Lead, Contribution in application development

Project Title: A DoNew Project
Description: An android application that detects grocery products and displays the price of that product on amazon.com
Skills used: OpenCV, Android App Development
Roles: Android App Development

Skill Set

Technical Skills
- C
- C++
- Java
- OpenGL
- Android App Development

Competencies
- Good Listener
- Adaptable
- Quick Learner
